REQUEST FOR CORRECTION OF FILING RECEIPT

The Honorable

The Commissioner for Patents

Sir:

The Commissioner's attention is respectfully directed to the enclosed Official Filing Receipt issued for the above-identified application. Applicants request a new filing receipt be issued to correct errors. The number of independent claims is listed incorrectly. The subject application was filed with a total of 26 claims, including 7 independent claims. As shown, by the attached copy of the Fee Transmittal Form the correct claim count and fees were provided when the application was filed. The attached copy of the claims as filed shows claims 1, 8, 11, 15, 19, 22 and 23 are independent.

The Official Filing Receipt also indicates that a Request for Non-Publication was filed. As shown by the attached copy of Utility Patent Application Transmittal and Post Card Receipt, applicants filed a Request to Rescind Previous Non-Publication Request 35 U.S.C. 122(b)(2)(B)(ii). Please note that upon receiving the Official Filing Receipt, applicants contacted the U.S. Patent and

PATENT

Trademark Office of Initial Patent Examination and spoke with Ms. Stokes. Ms. Stokes was kind enough to correct the publication error in the PTO database and asked that we mention this in our request for a corrected filing receipt. The present application was foreign filed simultaneously with the filing of this U.S. non-provisional application and publication is desired.

It was also noted on the Official Filing receipt that Eric H. Erickson was not listed as Eric H. Erickson Jr. as shown by the copy of the attached Application Data Sheet. It is applicants understanding, after speaking with Ms. Stokes, that the newly filed Declaration, attached hereto, executed as Eric H. Erickson Jr., will supercede the application data sheet and the inventors name will be printed correctly on the issued patent.

The Commissioner is authorized to charge any fee associated with this request to Deposit Account No. 50-2135.

If there are any questions or comments, the undersigned attorney earnestly requests a telephone conference.

Respectfully Submitted,

Margaret Connor

Receipt is acknowledged of this nonprovisional Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error is noted on this Filing Receipt, please write to the Office of Initial Patent Examination's Customer Service Center. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).

424

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

CLAIMS

PATENT

What is claimed is:

1. A method of controlling parasitic mites of honey bees, which comprises exposing parasitic mites to a miticidally effective amount of a compound, comprising:

(a) a ketone of the structure:

wherein y is 0 and x is 0 to 5 or wherein y is 1 or 2 and x is 3 or 2, respectively;

or

(b) a compound selected from the group consisting of 1-heptanol, ethyl butyrate, benzaldehyde, heptaldehyde, and d-limonene,

wherein said miticidal amount is effective to kill mites, to incapacitate mites such as by disrupting neural or other physiological functions to prevent essential mite functions or reproduction, or to render mites impaired sufficiently to be trapped, drowned, isolated, or otherwise removed from an area.

2. The method of claim 1 wherein said parasitic mites are Varroa mites.

3. The method of claim 1 wherein said controlling is carried out by placing said effective amount of said miticidal compound inside a honey bee hive so that vapors of said compound are distributed in the hive.

4. The method of claim 1 wherein said effective amount of said miticidal compound is dispensed by a dispensing means comprising a device or formulation which provides controlled release, slow release or sustained release of said compound.

5. The method of claim 4 wherein said parasitic mites are exposed to an effective amount of said miticidal compound for one or more brood cycles.

6. The method of claim 5 wherein said parasitic mites are exposed to an effective amount of said miticidal compound for two or more brood cycles.

7. The method of claim 1 wherein said miticidal compound is 2-heptanone.

COPY

PATENT

8. A method of controlling parasitic mites of honey bees, which comprises placing in an area where mites are to be attracted a dispenser means which provides an amount of 2-heptanone effective to attract parasitic mites.

9. The method of claim 8 wherein said parasitic mites are Varroa mites.

10. The method of claim 8 wherein said dispensing means comprises a device or formulation which provides controlled release, slow release or sustained release of 2-heptanone.

11. A method of controlling hive invading pests of honey bees, which comprises placing in an area where pests are to be controlled a dispenser means which provides an effective hive invader-controlling amount of 2-heptanone.

12. The method of claim 11 wherein said dispensing means comprises a device or formulation which provides controlled release, slow release or sustained release of 2-heptanone.

13. The method of claim 11 wherein said hive invading pest is selected from the group consisting of greater wax moth, lesser wax moth, small hive beetle, ants, and *Tropilaelaps*.

14. The method of claim 11 wherein said hive invading pest is the greater wax moth, *Galleria mellonella*.

15. A miticidal composition for controlling parasitic mites of honey bees which comprises a dispenser means which provides a miticidally effective amount of a compound, comprising:

(a) a ketone of the structure:

wherein y is 0 and x is 0 to 5 or wherein y is 1 or 2 and x is 3 or 2, respectively; or

(b) a compound selected from the group consisting of 1-heptanol, ethyl butyrate, benzaldehyde, heptaldehyde, and d-limonene,

COPY

PATENT

wherein said miticidal amount is effective to kill mites, to incapacitate mites such as by disrupting neural or other physiological functions to prevent essential mite functions or reproduction, or to render mites impaired sufficiently to be trapped, drowned, isolated, or otherwise removed from an area.

16. The composition of claim 15 wherein said dispensing means comprises a device or formulation which provides controlled release, slow release or sustained release of said compound in a miticidally effective amount.

17. The composition of claim 15 wherein said dispensing means provides an effective amount of said miticidal compound for one or more brood cycles.

18. The composition of claim 15 wherein said parasitic mites are Varroa mites.

19. An attractant composition for attracting parasitic mites of honey bees, which comprises a dispenser means which provides an amount of 2-heptanone effective to attract parasitic mites.

20. The composition of claim 19 wherein said dispensing means comprises a device or formulation which provides controlled release, slow release or sustained release of 2-heptanone effective to attract parasitic mites of honey bees.

21. The composition of claim 19 wherein said parasitic mites are Varroa mites.

22. A trapping system for controlling parasitic mites of honey bees, which comprises a trapping means and a dispenser means which provides an effective mite-attracting amount of 2-heptanone, wherein said dispenser means is located within sufficient proximity to said trapping means so that mites that are attracted are trapped.

23. A composition for controlling hive invading pests of honey bees, which comprises a dispenser means which provides an effective hive invader-controlling amount of 2-heptanone.

24. The composition of claim 23 wherein said dispensing means comprises a device or formulation which provides controlled release, slow release or sustained release of 2-heptanone effective to control hive invading pests.

COPY

PATENT

25. The composition of claim 23 wherein hive invading pest is selected from the group consisting of greater wax moth, lesser wax moth, small hive beetle, ants, and *Tropilaelaps*.

26. The compositions of claim 23 wherein said hive invading pest is the greater wax moth, *Galleria mellonella*.

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

Filing Date Granted

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given TWO MONTHS from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The oath or declaration is unsigned.
- To avoid abandonment, a late filing fee or oath or declaration surcharge as set forth in 37 CFR 1.16(l) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.
- The balance due by applicant is \$ 130.

A copy of this notice MUST be returned with the reply.
